pack dims:	33-1/2" x 10-1/2" x 4-1/4" 85 x 26.5 x 10.9cm

Keystation 49e is a 49-note full-size, velocity-sensitive USB keyboard designed for easy integration with Macintosh computers. Mac users will enjoy the keyboard's true plug-and-play operation, as the Keystation 49e is class compliant in OS X. Providing seamless compatibility with many music education and music creation software titles, the 49e is ideal for classrooms and studios alike. Advanced users can control softsynths, external sound devices, and more with the Keystation 49e's assignable slider and pitch and mod wheels. This sleek, compact keyboard is USB bus powered and requires no external power supply.

features

- 49-note velocity-sensitive keyboard
- pitch bend and modulation wheels
- volume/control slider
- advanced function button for programming
- sustain foot pedal input
